

## Migration Health Assessments for the United States of America-Bound Migrants

All applicants are required to undergo a migration health assessment as part of their visa application process for the United States of America. In this document, you will find important information related to your upcoming migration health assessment at the IOM’s Migration Health Assessment Centre in IOM Moscow, Russian Federation.

### IOM Moscow MHAC Contact Information

Address: Moscow, Rastorguevskiy pereulok, 3, the City Polyclinic 220 Sub-branch, 4th floor, room 412 (the nearest metro station “Ulitsa 1905 goda”).

Phone Number: +7.495.660 77 84

Opening Hours: Monday to Thursday 8:00 - 16:30, On Fridays 8:00 - 15:00

Email address: [eappointment@iom.int](mailto:eappointment@iom.int)

### What Should I Expect at my Appointment?

The scope of the migration health assessment varies depending on factors such as your age and current health status. The list below shows some of the procedures that you or your family (if they are applying to migrate with you to the United States) might receive:

- Registration.
- Counselling to explain the health assessment process (at the end of the counselling you will sign an informed consent form).
- Medical examination, which may include the following:
  - A review of your medical history and current symptoms.
  - Taking your measurements and vital signs.
  - A detailed physical examination to assess your physical and mental status.
  - A chest X-ray.
  - An Interferon Gamma Release Assay (IGRA) blood test for tuberculosis.
  - Urine test for Gonorrhoea and pregnancy (if applicable).
  - Syphilis test.
- Vaccinations to protect yourself and others from certain vaccine-preventable diseases, if needed.

### Breakdown of Migration Health Assessment Procedures, by Age of Applicant:

Below the Age of 2 Years	From 2 through 14 Years	From 15 through 17 Years

*All basic requirements are done on the same day, during the same appointment.*

INTERNATIONAL ORGANIZATION FOR MIGRATION

### Will I need additional tests or procedures?

Additional tests, treatment or immunizations may be to complete the health assessment and/or to comply with the requirements of the immigration authorities, based on health conditions identified during your examination. In such an event, you will be provided with additional counselling and more information during your appointment.

### Important Notes

#### Vaccinations:

Please bring your vaccination records. The doctor will need to review your vaccination history to determine if any other vaccinations are needed. If you are unable to bring your vaccination record, you will be considered 'not immunized' and will be given the recommended vaccines according to your age and medical status.

In case you have received and completed any Covid-19 vaccination, please bring proof of vaccination with you.

You can check vaccination requirements in this [table](#).

*Please note that refusing vaccinations may negatively affect your United States immigration prospects.*

#### Minors:

Applicants under the age of 18 must be accompanied by a parent or guardian who can provide consent and make decisions on their behalf.

#### Pregnancy:

If you are pregnant and undergoing a migration health assessment, you may choose to either proceed with the chest X-ray with a double leaded shielding to protect you and your unborn baby or wait to proceed with the migration health assessment until after giving birth.

If you choose to proceed with the chest X-ray, you will be requested to sign an additional consent form.

#### Tuberculosis (TB):

TB is a contagious bacterial infection that is spread from person to person through tiny droplets in the air. TB can be either:

- (1) Latent TB: when you have the bacteria in your body, but you don't have any clinical manifestations. To diagnose latent TB, active TB should be ruled out.
- (2) Active TB: when you have the bacteria and have clinical, radiological or laboratory manifestations.

You might be asked to undergo further testing if the doctor suspects you have TB. In such an event, you will be provided with additional counselling and more information during your appointment.

You will be requested to provide three (3) sputum samples over 3 consecutive days. These samples are then tested in a laboratory; it can take up to 8 weeks to obtain a result.

If you are required to complete this test, your health assessment certificate will be put on hold until the results are received. If you are found to have TB, you will need to successfully complete treatment before resuming the immigration process.

Good news! TB is treatable and most people can be cured with a few months of oral antibiotics.

INTERNATIONAL ORGANIZATION FOR MIGRATION

## What Do I Need to Bring to My Appointment?

### Identification:

- Passport (valid original).
- Case Number and visa interview appointment letter.

### Medical Records:

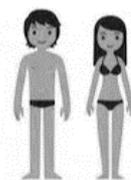

- Any medical reports on past or current medical conditions.
- Vaccination records.
- Child Health and Development Record for children, if available.

### Other:

- Eyeglasses or lenses, if you wear them.
- Address in country of origin printed and in English.
- Address in the United States printed and in English.
- If you pre-paid for your migration health assessment, please send us a copy or bring a hard copy of the proof of payment.

## Advice for the Migration Health Assessment

- For your physical examination, you will be asked to remove your clothes and will be provided with a medical gown, but please keep your underwear on (see image at right).
- You may request a chaperone to be present at your physical examination.
- Please do not conceal any medical conditions; deliberate attempts to hide them will be reported to the US immigration authorities.
- Please do not conceal your pregnancy; being pregnant will have no impact on your immigration prospects.
- Please postpone or re-schedule your appointment if you or your child are ill with a fever or have a rash.
- There is no need to fast prior to your appointment.

## Migration Health Assessment Fees and Payment Information

### Fees, by Age of Applicant:

Below the Age of 2 Years	From 2 through 14 Years	From 15 through 17 Years	From 18 through 24 Years	From 25 through 44 Years	45 Years and Above
209 USD	324 USD	386 USD	449 USD	413 USD	386 USD

*Additional fees will apply if vaccinations or other investigations are requested.*

#### How to Pay for the Migration Health Assessment:

- Payment is made on the day of medical examination at the IOM MHAC **in Russian rubles at the exchange rate fixed by the IOM on the 1st and 15th of each month.**
